

Easy to install aluminum stair nosing with a large LED channel underneath for various types of LED products.

Suggested installation method is using screws (not supplied). The aluminum does not include pre-drilled holes. Once the base aluminum is installed the top part clips securely into place.

LED wiring can be brought through either of the plastic end-caps or trough an installer-drilled grommeted hole in the backside of the LED channel.

SPECIFICATIONS

Material	AL6063-T5
LED Diffuser Lens	Polycarbonate
Colour	Silver Anodization (standard) Black (special order)
Length	2 meters (standard) Up to 3 meters (special order)
Dimensions	Overall size: 59mm deep x 22mm tall Tread coverage: 39mm x 14mm
LED Fitment	Up to 12.2mm wide
